PERSONEAI: Revolutionizing Digital Personalization

PERSONEAI: Revolutionizing Digital Personalization with Real-Time AI Adaptation

by Satya Vaishnavi Gumpally

Problem

1 **Unmet Needs**

Users struggle with rigid, one-size-fits-all digital experiences.

2 **Current Frustrations**

Manual adjustments disrupt user engagement.

3 **Market Gap**

Existing solutions lack true real-time adaptability.

Solution

Product Overview

PERSONEAI uses AI to adapt digital content dynamically.

How It Works

Seamlessly adjusts content and interface elements.

User Experience

Provides a frictionless and highly personalized interaction.

Benefits

Personalization

Real-time content adaptation based on user sensory data.

Convenience

Eliminates the need for manual adjustments.

Engagement

Increases user satisfaction and retention.

Scalability

Adapts to millions of users with individualized experiences.

Assumptions & Validation Roadmap

1

Phase 1

Develop a working prototype and conduct beta testing.

2

Phase 2

Collect user feedback and iterate on features.

3

Phase 3

Launch a freemium model to validate market demand.

4

Phase 4

Expand with full-featured offerings and assess long-term user retention.

What Makes Us Special

☆

Unique Technology

Real-time AI-driven adaptation based on multiple sensory inputs.

⬡

Differentiation

Unlike static personalization, our platform evolves dynamically.

▫▯▮

Proven Potential

Demonstrated user engagement improvements in preliminary tests.

🤝

Market Edge

Positioned at the intersection of AI innovation and user experience design.

Business Model

Revenue Streams	Pricing Strategy
Subscription-Based	Competitive pricing tiers to attract a wide range of users.
Microtransactions	
Freemium Model	

Market

1

Market Size

The global AI in the digital experience market is projected to reach $X billion by 2025.

2

Target Audience

Tech-savvy professionals, digital content consumers, accessibility-focused users.

3

Competitive Landscape

Current solutions offer static personalization but lack real-time adaptability.

Sponsorship Ask

Financial Support

Seeking 2-3$ Million in funding to accelerate product development, marketing, and user acquisition.

Strategic Guidance

Support in refining technology, scaling operations, and navigating industry networks.

In Return

Equity Stake: Offering 10-15% equity in PERSONEAI.
